

My experience includes commercial, hospitality, educational, scientific (laboratory), multi-family, and residential architecture and interiors as well as selling and procuring high-end furniture and teaching university-level design classes. My strengths lie in project management and communication skills and I excel in managing teams, inspiring decisiveness, and reaching compromises. I am well versed in dealing with Code Issues, coordinating with Governmental Agencies, and have excellent organization skills and attention to detail. I look forward to applying my diverse skill set to new challenges.
